

Stability. Savings. Control.

The Level-Funded Health Plan from Imagine360

A low-cost, turnkey solution that puts employers in control

Imagine360 offers a level-funded health plan specifically designed to help businesses of 50-250 employees control costs. With this solution, employers make level monthly payments that cover claims, stop loss premiums and administrative fees.

With the Level-Funded Health Plan from Imagine360, you'll get:

✓ **Lower costs**

Save ~15% on healthcare with Imagine360's advanced RBP strategy and completely transparent, pass-through PBM model. Employers and employees save on the medical care and prescription medications they need - all with the financial stability typically associated with fully insured plans.

✓ **Industry leading support for members**

Our multidisciplinary member support team is just one phone call away for help navigating all aspects of the healthcare system - including trained nurses available for general questions. And, our clinical care management team is always on-hand to help manage chronic conditions or serious diagnoses.

✓ **Peace of mind**

Employers feel better knowing they are protected from unpredictable losses that can occur with abnormally high-dollar or high-volume claims. Even better - if claims are lower than expected, they can be reimbursed up to 50% of the surplus amount.
