

Complete Care

A comprehensive health plan that puts employers back in control

We believe businesses and their employees deserve to pay a fair price for quality healthcare. That's why we designed an all-in-one, turnkey health plan from the ground up to help self-funded companies escape the escalating costs, inflexibility and uncertainty of traditional carriers.

✓ **For enhanced transparency and integrated support**

With integrated medical and pharmacy claims administration, businesses get total transparency into their plan utilization and performance data. Detailed reporting uncovers actionable insights employers can use to make strategic decisions while designated support for HR helps ensure a smoother transition for employees.

✓ **For superior member experience and improved outcomes**

Members are just one phone call away from a real person who can assist with all their medical and pharmacy-related inquiries. That same phone call can also provide access to medical management programs which aim to improve clinical outcomes for a wide range of conditions.

✓ **For meaningful savings that make a difference**

On average businesses can save 15-30% on medical, 30%+ on pharmacy, plus additional client-specific savings on stop loss. It adds up to a total combined health plan savings of ~25-30% when compared to traditional carriers.

Complete Care

An end-to-end solution for self-funded employers

For nearly two decades, we've helped benefits advisors and employers build flexible, customized solutions that support a healthier, more engaged workforce while driving long-lasting, bottom-line savings. Complete Care is our most comprehensive health plan solution.

Reference-based pricing (RBP):

Fundamentally lowers the cost of care for businesses and members with a transparent payment method based on widely accepted industry benchmarks - not the arbitrary prices set by some providers.

Pharmacy benefits:

ImagineRx, our transparent, pass-through PBM solution, returns all rebates to the plan and provides alternative sourcing for specialty and high-cost drugs. This helps members get the medications they need for the lowest net-cost while reducing pharmacy spend for businesses.

TPA services:

Employers and plan members receive industry-leading support for all aspects of the health plan. And, with integrated medical and pharmacy reporting, businesses can see their plan information in near real-time.

Stop loss insurance:

Protect your business from the long-term cost of catastrophic claims with a more competitive stop loss insurance quote specifically optimized for Complete Care plans.

Imagine how much better your health plan could be.

To learn more about Complete Care and other alternative health plan solutions for self-funded employers, call 610.321.1030 or email info@imagine360.com.

Your health plan can do better.
We promise.
